

# Client Services

## Simplifying the Hiring Process

At D&Y, it's about more than simply finding the right candidate, it's about providing you with the right solution. D&Y's recruiting and support services work closely with you to ensure no detail is overlooked. **We want to exceed your expectations.**

### CREDENTIALING

We work with your team to facilitate referencing, completion of hospital applications, and billing paperwork. Our in-house credentials department is dedicated to streamlining the privileging process and delivering a physician that we would trust to treat our own families.

### LICENSING

D&Y's dedicated recruiters and extensive national physician database are your resources to find the perfect candidate. Our licensing department provides the expertise to license physicians in any state, allowing you to choose your candidates from across the country.

### TRAVEL

Our experienced travel team provides cost-effective solutions for our clients that meet or exceed the needs of locum physicians. Our clients receive a travel cost summary upfront, before the physician comes to work, so there are never any surprise travel costs.

### ACCOUNTING

Our accounting department handles the entire provider payment process from coordinating timely receipt of physician time sheets to disbursing biweekly direct deposited payments. Should questions or concerns arise, an accounting team member is available to assist you.

## Career Connections For Life

Experience D&Y's unmatched full-service approach to customer care. Let's build connections for life.
